

If you are serious about your financial future you should know the **ANSWERS** to these four questions . . .

1. What **rate of return** do you have to earn on the assets you have accumulated for you to live at your current standard of living and last till life expectancy?
2. How much do you **need to have saved** today for you to live at your current standard of living and last till life expectancy?
3. If you are not yet retired, do you know **how long will you have to work** for you to live at your current standard of living and last till life expectancy?
4. If you don't do anything different than you are doing today, how much will you have to **reduce your standard of living** for your money to last till life expectancy?
